APPENDIX "B" TO E AND E REPORT NO.

List all military information which you observed or were told while evading. Give fullest possible details. (Airfields, troop encampments, coastal and interior defenses, AA batteries, radar installations, troop movements, results of allied bombing, location of enemy factories and ammunition dumps, enemy and civilian morale, etc., etc.,.....)

^{up to D-Day}
Northwest France very heavily occupied by German troops. Was told all trains carry AA guns - usually concealed. Coast around ~~St. Malo~~ ^{St. Malo} heavily mined. Mines are controlled electrically and set off from a central control point. Messrs. Panzer claimed to know the position & location of all the mines & also of the location of the control point for setting mines off.

Large fighter air base near ^{Heaven} Dinan was surrounded completely by huge sharp stakes driven in the ground as a defense against paratroops.

Most of cities I passed thru in N.W. France contained German encampments.

Paris very heavily occupied. Many AA batteries. Allied bombing in Paris very good. Not so successful in Nantes.

I think all Paris factories German controlled. I think German soldier morale is good.

French people are getting terribly anxious for liberation.

There is a German pilot school near Pau. I think west of Pau.
